Part B • Listening, Reading and Writing

LISTENING

1 [Audio UT5.01] Listen to a podcast about a type of conservation called 'rewilding'. Number the topics (A–F) in the order they are mentioned.

A The origins of the rewilding movement. ___
B The potential impact of rewilding on wildlife and the environment. ___
C The consequences of replacing typical farming with rewilding. ___
D The benefits of rewilding for the wider community. ___
E The rate at which animal populations have been falling. ___
F The reintroduction of animals which were once present in Britain. ___

/6

2 [Audio UT5.01] Listen again. Complete the sentences with a word, short phrase or number from the podcast.

1 Rewilding could lead to a significant reduction in the amount of _____ in the air.
2 Around _____ of Britain's native species are in danger of dying out.
3 There has been a huge decline in bird populations since the _____.
4 A thousand years ago there would have been many more types of _____ in Britain.
5 There is expected to be a greater range of wildlife in _____ places thanks to the bison.
6 Conservationists were more interested in protecting _____ than the current rewilding movement.
7 People involved in rewilding projects are interested in the effect different _____ have on each other.
8 The majority of fields in the British countryside are used for _____.
9 Nowadays _____ are inhabited by most of the people in the world.

/9

READING

3 Read an interview about a decision to live on a farm. Match the interviewer's questions (A–E) with the paragraphs (1–5).

A What advice would you give to people making similar life-changing decisions?
B What prompted your decision to purchase a farm?
C What had been going on before you made your life-changing decision?
D How easy was it to find a suitable farm to take over?
E How has life on a farm lived up to your expectations?

/5

Life-changing decisions: Looking for the good life
Ronnie Dawson interviews Amelia Williams about a life-changing decision.

1 ___
City life had been stressing me out for some time and I felt stuck in a rut. My husband and I were finding it hard to make ends meet and we seemed to be working all the time, which wasn't fun. I was also worried about air pollution because there was a lot of traffic where we lived. Desperate to make a change, our first idea was to move abroad. We imagined making a new life for ourselves in New Zealand, but, when my father got ill, we had a change of heart. Whatever change we decided to make would have to be nearer to home.

2 ___
One day we were watching an old TV comedy from the 1970s about a couple who decide to become self-sufficient. After having a mid-life crisis, the husband gives up his job to grow vegetables and raise animals in the garden of his suburban home. My husband said we should do the same and at first I just laughed at him. He comes up with some really bright ideas! The thing is, though, I couldn't help thinking about it afterwards and the idea of being self-reliant started to appeal to me. In the city, there are loads of places to get your groceries and you can get produce from all over the globe, but it comes at a cost to the environment. It seemed to me that if we could grow our own food, it might make the world a slightly better place.

3 ___
Unlike the couple in the series, I wanted to get away from the city so I came up with the idea of getting a small farm. At first, my husband didn't find my plan very convincing. In fact, he was quick to point out that neither of us had any relevant experience apart from a few pathetic attempts to grow tomatoes in our back garden. I wasn't deterred, though, and over time, he came around to my way of thinking, too. That's when we began to look for a house in the country with enough land to grow some crops and keep a few cows and chickens. After months of searching, we narrowed our options down to two. We were torn between them but, in the end, we chose the one with more land. I guess we were feeling ambitious!

4 ___
While we were looking for a suitable place, I did an intensive course on running a small farm. I learnt the basics, but nothing could have prepared me for how much work there would be. Apart from looking after the animals and crops, there's always something which needs fixing. We've got to the point where the farm provides nearly all the food we need, but we don't make enough money to live on so we both have to work elsewhere. We've normally spent three or four hours working on the farm before we go out to work. Just what you need! Having said that, producing all your own food gives you a profound sense of achievement, which is well worth the hard work.

© 2023 Pearson **PHOTOCOPIABLE**

5 ___

Before making any decisions, you need to weigh up your options carefully. It's not the sort of decision you can make on impulse. It might seem exciting to go outside your comfort zone, but that will wear off, especially if you have to get up at 4 a.m. on a cold winter's morning! Before taking on a project like this, assess all possible outcomes because things might not turn out as you expect them to. We knew we might need to work as well, but, if we hadn't had a back-up plan, we might not be running our farm anymore. The other thing to bear in mind is that your relationships will change a lot. We've made friends in our new community, but we've also found it hard to keep in touch with old friends because we're so busy. Having said that, the farm has been a huge hit with the ones we have managed to stay in touch with!

4 Read the interview again. Are the statements True (T) or False (F)?

1 Amelia was unhappy about doing the same thing in the city for a long time. **T** / **F**
2 Amelia had a different attitude about moving abroad after taking a family member into account. **T** / **F**
3 Amelia and her husband were inspired to watch a TV comedy after deciding to buy a farm. **T** / **F**
4 Amelia was concerned about the increasing price of groceries in the city. **T** / **F**
5 Amelia's husband immediately agreed with Amelia's suggestion to buy a farm. **T** / **F**
6 Amelia and her husband found it hard to choose between two possible farms. **T** / **F**
7 Amelia thinks the intensive course gave her sufficient training on how to run a farm. **T** / **F**
8 Amelia feels strongly that the results of their farm work are positive. **T** / **F**
9 Amelia thinks it is better not to spend too long reaching a decision about buying a farm. **T** / **F**
10 Amelia is pleased that they had prepared for the possibility of not having enough money. **T** / **F**

/10

WRITING

5 Match 1–5 with a–e to complete the ways to create a rapport.

1 Congratulations on winning the race! ___
2 I'm sure you need time to settle in, but ___
3 What do you think about meeting up? ___
4 Gina from work gave me your email address ___
5 It's a big campus with a great social life. ___

a I'm sure you deserved it.
b Send me a message and let me know.
c (Maybe there's too much going on sometimes!)
d why don't we get together when you're free?
e and suggested I get in touch with you.

/5

6 Alistair, a friend of a friend, has recently got a job in the company you work for. Write a welcome email, congratulating him on the new job and creating a rapport with him.

Write 200–260 words.
