10 Only after buying the car _____ (we / did / that / realise) the engine was worn out.

/10

2 Complete the sentences with the correct passive form of the verbs in brackets.

1 In most European countries, cars _____ (drive) on the right-hand side of the road.
2 The necklace that Heather's wearing _____ (give) to her on her last birthday.
3 We might _____ (ask) to show identification before we can go into the nightclub.
4 I hope _____ (inform) of my exam results by the end of the week.
5 The food might _____ (prepare) earlier, which is why they could serve us so quickly.
6 _____ (ignore) by your best friend is one of the worst things that can happen.
7 They hate _____ (keep) waiting so we'd better not arrive late.
8 This letter appears _____ (open) already. Did you open it?
9 _____ (show) around the school, we were then allowed to talk to the pupils.
10 She has to keep _____ (remind) that it's her turn to take out the rubbish.

/10

VOCABULARY

3 Complete the sentences with words connected with algorithms.

1 If you enter a series of short texts, the AI software will **o** _ _ _ _ **t** an original piece of writing.
2 There was a lot of data so the computer took days to **p** _ _ _ _ _ **s** all the information.
3 The new software will **r** _ _ _ _ _ _ _ **e** and strengthen our ability to make much more accurate predictions.
4 The company's budget will **d** _ _ _ _ _ _ _ **e** how much it can spend on new technology.
5 I've written a program which can **c** _ _ _ _ _ _ _ _ **e** different types of consumer.

/5

4 Choose the correct words to complete the sentences.

1 When I was introducing the speaker, I **rectified** / **slipped up** and said the wrong name.
2 Be careful with social media discussions because some of the comments are designed to **mislead** / **mistake**.
3 Frank was **mistaken** / **mistakenly** added to the list so we need to remove him.
4 No one has explained the interview process, but I **presume** / **rectify** we have at least one face-to-face meeting.
5 I can't believe I **mistook** / **was off** your husband for your father. How embarrassing!

/5

5 Match the sentence beginnings (1–5) with the sentence endings (a–e).

1 Sam always thinks she's in ___
2 You've got the ___
3 We must have gone ___
4 If the technology gets ___
5 We need to put Erin ___

a wrong end of the stick. I wasn't criticising you.
b into the wrong hands, it could be disastrous.
c wrong because these results can't be right.
d right before she makes the problem worse.
e the right, but this time she's wrong.

/5

6 Complete the sentences with the words and phrases in the box. There are two words or phrases you do not need.

adjust	**development**	**drain**	**integrate**
real time	**unified system**	**virtual PA**	

1 The government wants to create a(n) _____ of education across the entire region.
2 We're planning to _____ the software into our online platform.
3 If you don't switch off the torch function on your phone, it will _____ the battery.
4 There are some video channels where you can watch political debates in _____, as they're happening.
5 The new vaccine is still in _____ and we don't know when it will be ready for market.

/5

HOW TO …

7 Complete the conversation with the words and phrases in the box.

acceptable	**come to**	**cramped**	**crumbling**
expect	**happy with**	**offer**	**rotten**	**ruins**
what I can			

A: What do you think about the house? Are you interested in renting it?
B: I'm not sure. It's pretty [1]_____. I thought it would be a lot bigger.
A: I think 'cosy' is a better word to describe it.
B: Maybe. It needs a lot of work doing to it as well. I mean, the walls are [2]_____.
A: You can fix them easily.
B: And what about the wood around the windows? It's all [3]_____. This isn't really [4]_____.
A: [5]_____ do is give you the materials to fix the flat up.
B: But the place is in [6]_____. It isn't reasonable to [7]_____ me to do it.
A: Well, maybe we could [8]_____ an arrangement about the price.
B: OK. Can you give me a £200 discount on the monthly rent?
A: I can't do that I'm afraid, but I can [9]_____ you £100 a month off.
B: Fine. I'd be [10]_____ that.

Part B • Listening, Reading and Writing

LISTENING

1 [Audio UT6.01] Listen to two teachers talking about things that have gone wrong in their language school. Number the topics (A–E) in the order they are mentioned.

A Mistakes are made by everyone on occasion. ___
B A mistake was made when setting a task for some students. ___
C An unfortunate mistake resulted in an expert getting annoyed. ___
D One particular mistake had an economic cost attached to it. ___
E A mistake might have cost someone their job. ___

/5

2 [Audio UT6.01] Listen again. Choose the correct answer (A, B or C).

1 What does Sophie say about the listening exam she gave her students?
A She should have made sure the students didn't get such high marks.
B She should have corrected the papers as soon as the exam finished.
C She should have been more aware of the exam which was taking place.

2 How does Alan feel about the type of mistake Sophie has made?
A It's better not to make mistakes if you can avoid them.
B It's likely that Sophie will be able to rectify the issue.
C It's not the type of mistake that he would have made.

3 What does Alan say about printing on a plastic sheet?
A Only a certain type can be used in the photocopiers.
B The director had showed him how to do it correctly.
C Some teachers had been able to do it successfully.

4 How does Alan feel about the incident with the photocopier?
A He's embarrassed about his lack of technological skills.
B He's annoyed that the other teachers didn't help him.
C He's grateful that he wasn't held responsible for the accident.

5 What was the result of a mistake the director made?
A The school couldn't sync the computers with the server.
B The employees were unable to access their files.
C The IT department said it was the worst loss of files ever.

/10

READING

3 Read an article in which three family members discuss technology. Tick the points (1–6) which are mentioned.

1 Louis explains his thoughts about the effectiveness of computers for helping young children learn. ___
2 Louis gives his reasons for feeling uncomfortable while using social media. ___
3 Jennifer mentions her feelings about the way new technology has been integrated in her workplace. ___
4 Jennifer gives her reasons for wanting to reduce the amount of time she spends on social media. ___
5 Bob explains why computers in the 1990s used to have green screens. ___
6 Bob describes how he deals with the problem of small text size on his smartphone. ___

/6

What does technology mean to you?

Three generations of the same family tell us what technology means to them.

The son: Louis, 26, engineering student

The internet only became available to the public several years before I was born, so you could say I'm a digital native. Nevertheless, I don't remember technology playing such an important role when I was at primary school and smartphones were still in development then. Only later, at secondary school, did they become available, but under no circumstances would my mum let me have one. She used to go on about how they were just a trend and that in a few years no one would be using them. What makes me laugh is that I don't know anyone who's more attached to their phone than her these days. She can't put it down for more than five seconds at a time!

Personally, I don't like being connected to social media all the time because I find it overwhelming. Being sent messages from friends is alright, but I can't stand getting non-stop notifications about things that barely interest me. At the same time, there's no getting away from the fact that computer technology is integral to our lives nowadays. On my engineering course, not only is it used for generating reports, but also for designing objects and it's difficult to imagine creating anything without it. That's why my view is that we should treat technology like any other tool. A hammer is handy when you've got a job to do, but you don't walk around with it in your hands all the time.

The mother: Jennifer, 52, doctor

As with most professions, technology is being used more and more in my line of work. For example, we take advantage of video conferencing software to carry out virtual check-ups. Patient records are also stored online now, although not all the systems are fully integrated, which can be frustrating. In fact, there have been times when I thought it would be easier if paper records were still being used! Nevertheless, it was forecast that computers would be diagnosing patients' illnesses by now, but, in my experience, that's not really the case. In fact, apart from my computer, equipment in my surgery has changed very little in the last thirty years. It seems a shame that technology isn't being exploited more.

© 2023 Pearson **PHOTOCOPIABLE**

It's in my social life that technology has really had an impact. Louis is always complaining about the amount of time I spend on my phone. Sometimes it rubs me up the wrong way, but I suppose he's in the right. I am aware of the negative effects of spending too much time in front of a screen, which is why I've been trying to cut down on social media and other apps. It's tough, though, because it's how I keep in touch with my friends. It feels as if I'm missing out if I don't follow their activity or reply to their messages.

The grandfather: Bob, 82, retired
When I retired, I bought a laptop which I used to send emails and surf the internet. I'd worked in an office in the 1990s, so I was used to working with computers. In those days, they had green screens and it took ages to process even the most basic information. Nevertheless, apart from being faster and more powerful, computers haven't changed a great deal since then. However, what has been a big change for me is the appearance of smartphones. I was given one by my daughter recently and I'm struggling to get used to it. She thought it would help me to stay in touch with the family, but she was clearly mistaken because I hardly ever use it! One of the problems is that my eyesight has been getting worse and I can't make out the text very well. In fact, not so long ago someone sent me a message and I got completely the wrong end of the stick. Because I couldn't see all the words, I thought it was good news. I replied with a thumbs-up emoji, but it turned out they were telling me their cat had died! On my laptop I could have zoomed in on the text, but on the smartphone everything's so tiny. To be honest, my grandson has the right idea about smartphones. He thinks people are too dependent on them and we should only use them when necessary.

4 Read the article again. Are the statements True (T) or False (F)?

1 Computer technology was widely available while Louis was at primary school. **T** / **F**
2 Computers are only used for generating reports on Louis' engineering course. **T** / **F**
3 Louis and Jennifer share the view that Jennifer is connected to her device for too much of the time. **T** / **F**
4 Jennifer regrets the fact that paper records are still being used in her profession. **T** / **F**
5 Jennifer occasionally gets frustrated with the way Louis discusses her use of social media. **T** / **F**
6 Jennifer and Bob are of the same opinion that mobile technology is a useful way of communicating. **T** / **F**
7 Bob had never used a computer before purchasing a laptop. **T** / **F**
8 Bob recently made an unfortunate mistake when he was replying to a text message. **T** / **F**
9 Bob and Louis share the view that smartphone use should be restricted. **T** / **F**

/9

WRITING

5 Match 1–5 with a–e to complete the formal phrases for complaining.

1 I look forward to ___
2 I have no ___
3 To make matters ___
4 I am sure you understand my ___
5 Please see the attached ___

a frustration at not being able to attend the concert.
b hearing from you soon regarding this matter.
c order form for confirmation.
d doubt that you'll be able to offer me a full refund.
e worse, there were no more flights to Rome that day.

/5

6 You have recently signed up to a new internet provider and you are disappointed with the service. Write an email of complaint stating:

- **why you are writing.**
- **what the problems are.**
- **what the desired outcomes are.**

Write 200–260 words.

Part C • Speaking

SPEAKING

1 Listen to your partner talk about their pictures.
Ask: What might they do to rectify the mistake?

2 Describe and compare the pictures showing people using technology.
Why have the people chosen to use these forms of technology?

/15

3 Answer your partner's question.
