5B GRAMMAR: the perfect aspect

Ask around …

1 In ten years' time, how do you think your life will have changed?

2 How long have you known your closest friend?

3 Think of a time you laughed. What had you been doing?

4 Had you already met anyone here before starting the course?

5 What new technology will have been invented by the end of the century?

6 What is a place you're pleased to have visited?

7 Between now and this time tomorrow, what will you have achieved?

8 Had you had many conversations today before coming to class?

9 What are the most unusual food combinations you have tried?

10 What's a skill you hope to have improved on by this time next year?
