Sample answers and mark schemes

Task 1

Can give or seek personal views and opinions in discussing topics of interests.

Student A and B dialogue

A So let's talk together about these different jobs. Personally, I would really like to become a teacher. I know it's a hard job, but I'd really like to teach Maths. I haven't really enjoyed it at school, but I'd like to get other people to enjoy it. But I don't think I'd like to be a hairdresser. I wouldn't be any good at it. How about you?

B Well, I'd love to be a footballer, because then I'd earn a lot of money! But I'm no good at football, unfortunately! And I don't think I want to be a builder – you have to work outside a lot in cold weather. If you ask me, a pilot would be a good job – you can travel, and the job's interesting.

A Yes, but you have to think quickly in an emergency. That's a difficult job. Which do you think is the most difficult?

B I think being a doctor is a difficult job. You have to study for years and work long hours.

A I couldn't agree more. I think that's the hardest.

Task 2

Can give straightforward descriptions on a variety of familiar topics.

Student A

This looks like a quite traditional school – maybe it's one where you have to pay fees to attend. The students have all got traditional school uniforms on. They are wearing ties and the girls are wearing skirts, but they can choose their own bags. Some of them have backpacks and the girls have colourful bags. They are walking down a street and they look happy, so they must like their school. I'm not sure if I would like to go to a school

like that. The uniform looks a bit uncomfortable and I guess it's quite strict at the school, and you probably get into trouble if you don't do your homework or skip lessons! But I guess the level of education would be very good.

Student B

There is a group of students in this picture, but I don't think they all know each other. They're not wearing uniforms, they're just dressed in their own clothes – they don't look untidy, though. I think they are students at university. They are sitting on a staircase in a big modern building, it looks very new and clean, so I guess it's got really good facilities. One boy looks bored, and the one with the laptop looks a bit stressed, so the lessons might be very difficult. I'm not sure I'd like to study there – it looks very busy and I feel more comfortable in smaller places. But I think the education you'd get there would be good.
