STEP 2 GOING AHEAD

What does a good **digital** citizen do?

Scenario 1

Sharon and her classmates had to prepare a presentation about climate change. They used various online sources and found the information they needed. They copied and pasted texts on the slides, and added some pictures they found online, but without saying exactly where they found the information.

Question: Did Sharon and her classmates use the internet in a responsible way? Why/Why not?

Scenario 2

Will wants to buy his mother a birthday present online. He has saved his pocket money, but he needs a credit card. You can't pay cash when shopping online. He knows his older sister's credit card password and decides to use it. He will give her the money back later.

Question: Was Will's behaviour safe or unsafe? Explain why.

Scenario 3

You are tagged in a photo. The photo was taken while you were in the swimming pool with some friends last month. You don't like the photo. One day you see that someone has posted some very nasty comments about you and your friends under the photo.

Question: How would you react? Explain why.

Scenario 4

While online, you get a friendship request from someone you don't know. You check this person's profile and you find you are the same age and share the same interests.
