Focus 1 Placement Test

Answer Key

The placement test for each level of the course consists of three sections.

- Questions 1–25 test vocabulary and grammar from a lower level, which students should already know before they start this level.
- Questions 26–75 test vocabulary and grammar from the level itself.
- Questions 76–100 test vocabulary and grammar from the level above.

For placing students, we would suggest the following approach according to scores:

- 10 and under correct: Consider starting the student at the level below. In the case of level 1, consider providing extra remediation before the student starts the course and extra support through the course.
- 10–40 correct: Start the student at the expected level (1) and monitor progress to check whether remediation or extra support is required.
- 50–75 correct: Consider an extra oral interview to determine whether the student should start at the expected level (1) or could start at the level above (2), with extra support.
- More than 75 correct: Start the student at the level above (2).
