Student A

1 Student B has some information about The Alps Summer Activity Centre. Use these prompts to ask Student B questions about the missing information.

You have 1 minute to read the prompts and to think about the questions you are going to ask.

THE ALPS SUMMER ACTIVITY CENTRE

where / activity centre?
what / do?
when / open?
how / travel / to activity centre?

1 week ticket? £?
lessons / new sports?
buy / tent?

Here is some information about Yellowstone National Park. Student B will ask you some questions about this. Answer Student B's questions.

YELLOWSTONE NATIONAL PARK

In the northern part of the USA
See wolves, bears, rare birds and many other animals
Come in the summer to see more wildlife
Travel around the park on our special buses
7-day passes: With a car – $30
Without a car – $15
Open every day all year round
Visitor centre for information, bookshop, and museum

2 You are talking with a friend about environmental problems and what people can do to help nature and the environment.

The conversation can begin like this:

Student A (You): What do you think the biggest environmental problems are today?

Student B (Your Partner): Well, I think…

Continue the conversation to discuss the following things:

- the main environmental problems around the world
- what governments must do to help
- what ordinary people should do to help
- what you are going to do to help nature and the environment more.

3 Listen to your partner talk about their photos and think of two questions to ask about what they say.

Your family is thinking about moving to a new area to live.

Look at the three photos below and:

- describe the first picture
- decide which place would be best for you and your family to live and explain why
- explain why you rejected the other two places.

Then answer the questions your partner asks you.
